

CO CURRICULAR ACTIVITIES

All work and no play makes Jack a dull boy.

Co-curricular activities are undertaken along with academics. They supplement academic curriculum and help in learning by doing. **These activities help students to develop problem-solving, reasoning, critical thinking, creative thinking, communication, and collaborative abilities.**

Co-curricular activities such as music, art, SUPW and games are compulsory. Others are voluntary such as participating in a school sports team, school debating teams, or student newsletters editorial team. **Participation helps students in emotional development, social skill development, and overall personality development.** This is why co-curricular activities are crucial for holistic growth of students.
